MC-CG973

Canister Vacuum with Power Nozzle

Attachment Storage

Four cleaning attachments are recessed on top of the canister for quick and easy access; helping to reduce time spent searching for needed tools.

Positive Drive Brush System

V-groove belt and agitator shaft team up for non-slipping positive brush action and more effective cleaning.

360° Swivel Hose

Full circle cleaning is possible without moving the canister. Additionally, canister tip-over is greatly reduced as the hose moves freely in all directions.

Bare Floor Switch

The fingertip switch on handle shuts off the agitator for safer cleaning on bare floor surfaces.

Power Nozzle Overload Protector

The overload protector reacts quickly to shut off and protect the belt and nozzle motor if the agitator is jammed. When the clogging object is removed and the reset button pressed, vacuuming can be resumed.

Retractable Cord Reel Rewind

With just a light touch the cord reel automatically retracts the cord into the reel housing.

MC-CG973 Specifications	
DESIGN	
Color	Arctic Blue
Amperage	12 Amps
Cord Length w/cord reel	24-Feet
Hose Swivel	360°
Power Switch Location	On Handle
