EZ BareFloor™

MC-CG902 Canister Vacuum

Panasonic ideas for life

MC-CG902 Canister Vacuum

Features:

Tools On-Board

Four cleaning attachments are recessed on top of the canister for quick and easy access; helping to reduce time spent searching for needed tools.

Positive Drive Brush System

V-groove belt and agitator shaft team up for non-slipping positive brush action and more effective cleaning.

On/Off Bare Floor Switch

The fingertip switch on handle shuts off the agitator for safer cleaning on bare floor surfaces.

Retractable Cord Reel Rewind

With just a light touch the cord reel automatically retracts the cord into the reel housing.

Power Nozzle Overload Protector

The overload protector reacts quickly to shut off and protect the belt and nozzle motor if the agitator is jammed. When the clogging object is removed and the reset button pressed, vacuuming can be resumed.

360° Swivel Hose

Full circle cleaning is possible without moving the canister.

MC-CG902 Specifications

FEATURES	
Color	Burgundy
